## TCA DESCRIPTION

**Themes and goals:**

The Italian Erasmus+ NA, as part of the Long-Term Activity (LTA) Sustainability and Greening, organizes the TCA seminar "The Erasmus+ Generation for the Earth". The main goal of this TCA is to enhance the vision of the E+ European Generation towards the Climate and Ecological Crisis (CEC) which involves the Planet Earth. The event will support the creation of a Manifesto to summarize the desirable and the feasible, the dream and the reality in a way where the competents, the creativity and the sensitivity of international students towards the crisis will be expressed in line with desirable solutions to it. The event will gather Higher Education (HE) students representatives from the E+ participating Countries. The event is organized in partnership with the Italian Committee of the International Earth Day. In this framework, participants will receive structured perspectives on the climate and ecological crisis by internationally recognized keynote speakers. They will provide the right inputs in order to make students cooperating to find mutual solutions for the analyzed problems. The Climate Fresk (CF) will also be offered. CF is a collaborative workshop based on the IPCC reports. CF is a powerful tool for providing a quality climate education. It teaches the fundamental science behind climate change so to empower people to take action and build solutions. After the scientific analysis of the framework, participants will be divided in working groups to work on solutions. The work of the groups will be brought together in a final report, the Manifesto of the E+ Generation for the Earth, which will describe and highlight the entire journey of the young participants. The final document will offer a comprehensive summary of the activities carried out, the methodologies used, the reflections that emerged, and the proposals formulated by the students, providing a comprehensive overview of the learning experience and the contributions generated by the working groups. The Manifesto will be presented at the Italian pavilion during the COP 31 by a delegation of the international E+ students contributing to it. Thus the event provides a unique occasion for networking, sharing innovative ideas, implementing learning outcomes, offering transferable results. There will be plenary sessions and spaces for interaction among participants, who will discuss good practice examples, opportunities and benefits, challenges and lessons learned.

**Expected results:**

Enhance Awareness: Share updates information on the Climate&Ecological Crisis (CEC) and the Erasmus+ opportunities to face it in a cooperative and international approach which will also focus on provided tools like green travels. Identify Synergies: Enhancing the importance of multidisciplinary approaches to a problem like the CEC in order to highlight the importance of contributions from both the scientific and the humanities sectors. Creating lasting connections among students from different Countries so to have a lasting impact. Develop Proposals: Europe plays a role: supporting the creation of a Manifesto which summarizes the desirable and the feasible, the dream and the

reality in a way where the collective intelligence and the sensitivity of the international students towards the crisis will be expressed. Foster Dialogue: Promote an open and constructive exchange of ideas, experiences, and expectations among all the future E+ Generation of the Earth.

**Additional information:**

Venue: Earth Day Village, Villa Borghese, Rome  
 The event is organized in partnership with the Italian Committee of the International Earth Day. The event will start at 8.30 am on the 16th of April and it will finish at 6.30 pm on the 17th of April and it will involve aprox. 150-170 participants: 50 participants from Italy as organizing Country 100 participants from E+ HEIs in Europe (priority will be given to the Countries participating in the LTA Sustainability and Greening) European Commission, Green Priority Officers Salto Green 1 NA staff (priority will be given to students)

**Important notes:**

Earth Day on April 22nd is the largest environmental event on the planet: the moment in which all citizens of the world unite to celebrate the Earth and promote its protection. Since 2007, Rome hosts this event in Villa Borghese, one of the biggest park in the historical heart of the city. Apart from the venue dedicated to the TCA, the park will host many information points on sustainability, included one dedicated to the Erasmus+ opportunities and priorities. The impact of the initiatives organized in Villa Borghese by Earth Day Italy has grown significantly in recent years, reaching peaks in participation exceeding 200.000 and over 200 million media contacts, nationally alone. With this TCA, the Italian NA intend to further foster and widespread the contribution of the E+ programme to tackle human kind priorities like the green sustainability.

## PARTNERS AND PARTICIPANTS

**Organiser NA:** IT02 - Agenzia Nazionale Erasmus + - INDIRE

**Contact person of Organiser NA:** Pietro Michelacci

**Contact email of Organiser NA:** p.michelacci@indire.it

**Phone number of Organiser NA:** -

**Website/social media page(s):**

**Is this TCA open for co-organising partner applications?:** Yes

**Deadline of co-organising partner application:** 31.01.2026

**Deadline of booking places:** 13.03.2026
